

Available on all Watchman® multi-family models - W461, W462, W480, W482, WXL & WXL2.
 May be added to W410 & W450 models via a  external Reader & bracket.
 Available via OmniPoint with  Readers & Credentials only.

Replace physical keys with Virtual Keys to reduce costs, simplify visitor management & increase resident convenience.

Virtual Keys modernize access control with real-time security management & transaction tracking. Instantly delivered via text or email, Virtual Keys provide visitors seamless access to designated property entry points while offering residents enhanced entry control and flexibility.

Virtual Keys are available on all Watchman Multi-Family models

We Offer 3 types of Virtual Keys:

Individual Key

- Are only shared with **ONE VISITOR** and refresh after each use
- Are limited by day, time & number of use restrictions set up by the property manager or resident
- Are good for anyone who will need recurring access

Ideal for: dog walkers, landscapers, pool cleaners, regular babysitters, trash pickup

Individual Key

Property Manager or Resident

Individual Key

(QR Code keys Only)

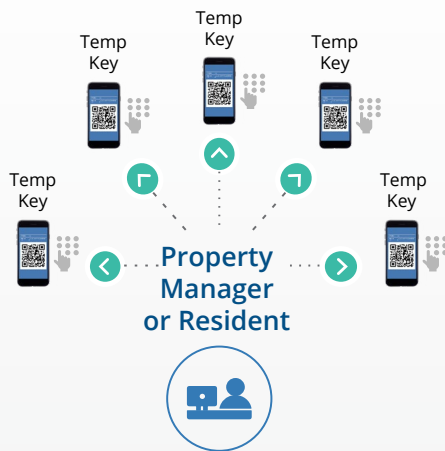

Temporary Event Key

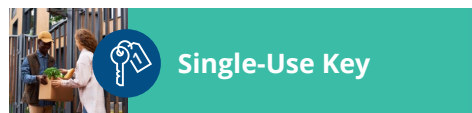

- Can be shared with **MULTIPLE VISITORS**
- Have a start date & time, and time limit from 1-hour to 7 days unrestricted
- Valid for entire time window allotted
- Are good for one-time events

Ideal for: parties, movers, events

Temporary Event Key

(QR & PIN Code keys)

Single-Use Key

- Are only shared with **ONE VISITOR**
- Are QR Code or PIN Code Keys
- Are valid for one-time access only
- Are good for quick access needs

Ideal for: deliveries, service technicians, emergency repairs, real estate showings

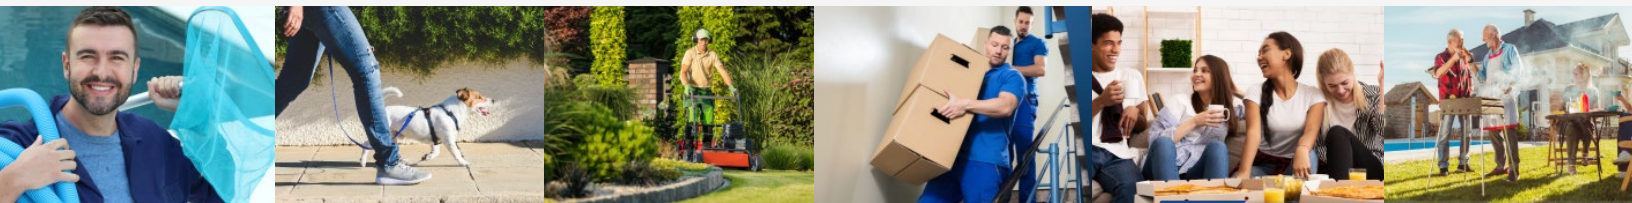

Single-Use Key

Singular-Use Key

Property Manager or Resident

(QR & PIN Code keys)

Available on all Watchman® multi-family models - W461, W462, W480, W482, WXL & WXL2.

May be added to Watchman W410 & W450 via a  external Reader & bracket.

Available via OmniPoint with  Readers & Credentials only.

Key Features

- ✓ **Added Security & Convenience**
 - Individual QR Code keys refresh when used, thus eliminating screen shot sharing and increasing security.
 - Individual Keys can be stored in wallet or calendar for easy access.
 - Temporary Event Keys can be stored in calendar for easy access.
- ✓ **Eliminate Access Code Sharing**
 - Virtual Keys reduce the need for more easily shared access codes, increasing security.
- ✓ **Administration Management & Control**
 - Administrator can choose to manage and send Virtual Keys to visitors on resident request or grant residents access to send any of the 3 key types: Individual, Temporary Event or Single Use Keys.
- ✓ **Simple to Issue**
 - Virtual Keys can be created in the CellGate app or via TrueCloud Connect™.
- ✓ **Tracking Logs**
 - TrueCloud Connect™ logs every Virtual Key usage attempt, including picture of visitor when utilized with Watchman.
- ✓ **Time & Expense Savings**
 - Eliminates costly and time-consuming physical key/fob management.

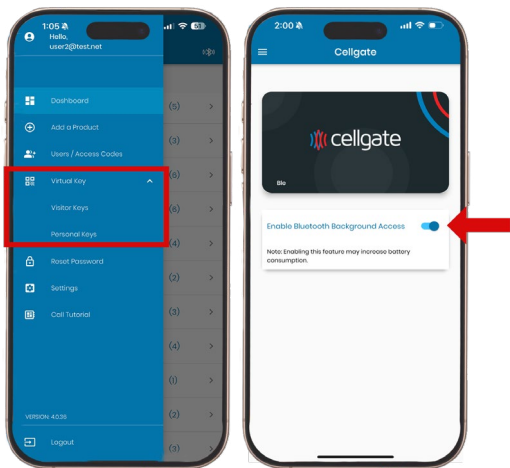

Virtual Keys are available with OmniPoint when using  Readers & Credentials

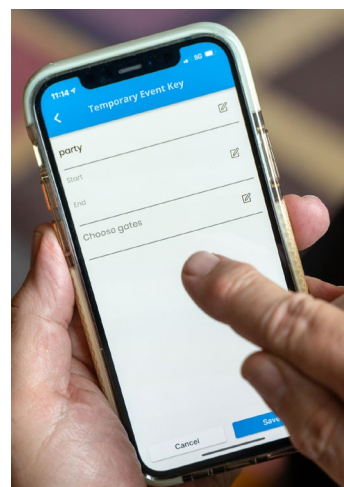

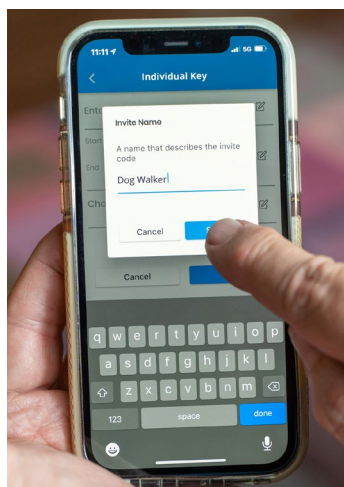

Virtual Keys are available with the Watchman W410 & W450 with additional bracket &  Reader

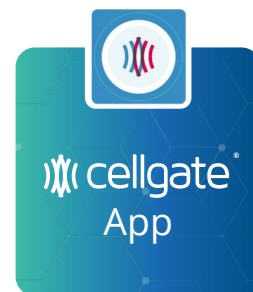

Administrators control Virtual Key issuance: who can issue them, their types, and compatible entrances.

Bluetooth-Enabled Resident Personal Keys & Visitor Key credential issuance reside in the CellGate app

Virtual Key being created for visitor(s)

Available on the App Store and Google Play
